

E-One Moli Energy (Canada) Limited is a well-equipped lithium-ion battery R&D facility located in Maple Ridge, B.C. with over 70 employees. We are proud of our 40+ years in the Vancouver area and strive to be a world leader in materials research and battery development along with providing manufacturing expertise to our production operations in Taiwan. Our technically minded employees are a fantastic group who really love to research and develop great batteries!

Due to an upcoming retirement we are looking for a **PLANNER/MACHINIST** to join our small machine shop. Our shop consists of mills, lathes, surface grinders, saws and various measuring instruments. There is a complimentary mechanical shop to handle welding, painting and assembly. The position involves managing incoming jobs, evaluating time to complete and scheduling work to meet different priorities. When necessary, there will be a need to assist in the shop with manual precision machining work. Materials are generally stainless steel, steel, aluminium, glass-filled laminates, and various plastics and tool steels. CNC experience will be an asset as we expand our shop in the future.

Key Responsibilities:

- Assign and schedule machine shop work, both in-house and outside work.
- Review Engineering drawings and estimate time for on-site requests.
- Coordinate work with Engineering and Maintenance to ensure a timely completion of jobs to meet deadlines.
- Organize and maintain equipment, tooling and supplies within the shop.
- Set and maintain shop standards for cleanliness and quality of work.
- Maintain company calibration program for specific instruments
- Assist in the development of procedures to streamline repetitive work.
- Provide training for new personnel on the usage of shop equipment.
- Maintain a high level of safety awareness for self and co-workers.
- Machine parts to close tolerances.

Qualifications:

- Recognized Journeyman Precision Machinist with 5+ years of work experience preferred.
- Proven ability to work in a team environment with minimal supervision.
- Reasonable computer skills for CAD/CAM work and interoffice communication.
- Proven desire to continually improve self and workplace.
- Excellent interpersonal, communication and organization skills.
- Ability to coordinate with all available resources to ensure the quality and timeliness of the work to be completed.

What's in it for you?

All our employees enjoy Moli perks – a great working environment, regular social functions, excellent company-paid benefit package, 3 weeks' vacation (to start), employer matching pension and RRSP plan, and professional development opportunities. Currently we are working a day shift operation, Monday to Friday.

E-One Moli Energy (Canada) Limited values diversity in the workplace and is committed to employment equity. To apply for this position, **send your resume and cover letter** via email to careers@molienergy.com
